I'm currently in the middle of my own kitchen renovation and thanks to the pandemic, I find my local home improvement stores have been low on supplies due to supply chain issues or out of stock. If you plan on renovating, see my blog post [The Ultimate Kitchen Renovation Guide](#).

I decided to turn to [Amazon](#) to find most of my [home decor supplies](#) because I no longer have to drive and go searching only to find out it's out of stock. I love [Amazon Prime](#) because you can still get 2-3 day shipping, plus their prices are competitively low compared to the big box stores! Just click on the images below to find the items.
